

B&B Quart de Lune è situated in the historical centre of Villair de Quart, in the central valley of the Region, at about 1,5 km from “Aosta Est” motorway junction. The building is located in lands which until the beginning of the 19th century were owned by the Franciscan Monk community of Aosta. The house, built in 1911, is immersed in nature and has the typical style of an “olden days” home (a maison “d’antan”), whose careful renovation has maintained the antique atmosphere, enhancing its sober and somewhat vintage elegant interiors, with authentic precious furniture, dating back to the 19th century. For those who love reading, the well-stocked library also offers a selection of books dedicated to the history and culture of Valle d’Aosta, with books in various languages (French, German). The views from the windows span over the surrounding mountains, Monte Emilius, Ruitor and the imposing monumental structure of the medieval Castle of Quart. The B&B is in an ideal position for holidays immersed in culture, history, nature and tranquillity. For the more sporty guests, bicycles are provided for rides on the 10 km cycle-route which runs along the Dora Baltea river; or for mountain tours. All breakfast products are organic and strictly local (Km 0), as well as all toiletries, in perfect sintony with the surrounding environment.

Facilities and characteristics

- Continental-style breakfast included
- Wireless throughout the house
